Description

Bandit is a 60ft x 10ft cruiser stern widebeam built in 2020 by Collingwood and professionally fitted out by Frontier Construction. This beautifully designed vessel offers a perfect blend of style, comfort, and practicality, making it an ideal choice for both liveaboard life and extended cruising.

The oak wooden flooring and warm wooden window frames create a welcoming and timeless feel, while six large windows and four portholes flood the space with natural light. The interior is fully insulated and lined with marine-grade ply for year-round comfort.

Practical additions include a Water Freedom filtration system, 4G WiFi with an external booster, and four fire extinguishers for safety. A dedicated storage area at the stern keeps belongings neatly tucked away, while the rear deck features a wraparound seating area, ideal for relaxing or entertaining guests.

The galley is fitted with a Howdens kitchen that offers ample storage and a modern finish. It includes a freestanding four-ring gas hob, oven, and grill, making it fully equipped for preparing meals on board. A side hatch allows fresh air to circulate and offers a picturesque view while cooking.

The dining area is flexible and adaptable to your needs. Currently, it features a four-person dining table that offers a comfortable space for meals and socialising, but it can be easily reconfigured to suit your preferences.

The lounge is a versatile space with no fixed furniture, allowing you to create a layout that suits your lifestyle. At present, it is furnished with a two-seater sofa that converts into a sofa bed, making it a welcoming space for guests. A Hobbit multi-fuel stove with a Welsh slate fireplace adds a cosy focal point, while radiators and multiple plug sockets ensure comfort and convenience.

The bathroom is stylish and well-appointed, with a composting toilet provided by Compoost and serviced by 'Circular Revolution.' A custom-built sink from Morocco, paired with a tap from the Orient Express, gives the space a unique character. The room also offers under-sink storage and additional storage next to the large walk-in shower, which is fitted with a rainfall shower head and provides excellent water pressure. A custom sliding wooden door completes the space, adding both style and practicality.

The master bedroom is bright and spacious, with a standard double bed and two built-in wardrobes. Additional hidden storage can be found under the steps and within the wardrobes, and there is plenty of room to add further storage if desired. Bow doors open directly onto a smaller deck with external locker storage, creating a peaceful outdoor retreat.

Whether you are seeking a stylish liveaboard home or a spacious holiday retreat, Bandit offers a rare combination of comfort, quality, and adaptability. Its light-filled interior, thoughtful design, and inviting outdoor spaces make it a perfect choice for those who want to enjoy life on the water without compromise.
